

KuberyaAI Solutions Presents

ARTIFICIAL INTELLIGENCE REVOLUTION

[Kuberya.com](https://kuberya.com)

INTRODUCTION

Kuberya AI Solutions: Pioneering Generative AI for Intelligent Automation and Impact

Kuberya AI Solutions is an innovative technology consultancy, founded by a synergistic team of IITians and entrepreneurs, operating at the forefront of the Generative Artificial Intelligence (GenAI) revolution. Driven by the vision to simplify and optimize work through intelligent automation, we harness the transformative power of AI to devise practical, bespoke solutions for diverse challenges faced by individuals, businesses, and institutions.

We have developed a suite of Artificial Intelligence-powered chat bots designed to provide comprehensive, level-specific support to students- AI Guru and AI Guru *Mini*.

TYPES OF AI BOTS

AI Guru *Mini*

AI Guru *Mini* is equipped to address the full spectrum of academic and support needs at the school level, from clarifying minor doubts to assisting with complex challenges students may encounter. Yes it can help you learn new skills or can do your career counselling as well.

It provides speed and efficiency for quick answers, simple tasks, and high-volume interactions.

AI Guru

AI Guru, is engineered to assist students with a wide spectrum of academic challenges. From foundational concepts like basic multiplication to the intricate problem-solving required for highly competitive examinations such as JEE Advanced. It is designed to "think deeply" through complex academic and technical challenges, breaking them down into logical steps

It deeply understands information from different formats, including text, images, audio, and video.

These AI-powered chatbots offer flexible deployment options for institutions. They can be conveniently accessed via WhatsApp, or seamlessly integrated into an institution's existing website or a dedicated mobile application, complete with exclusive institutional branding.

INTERACT 24X7

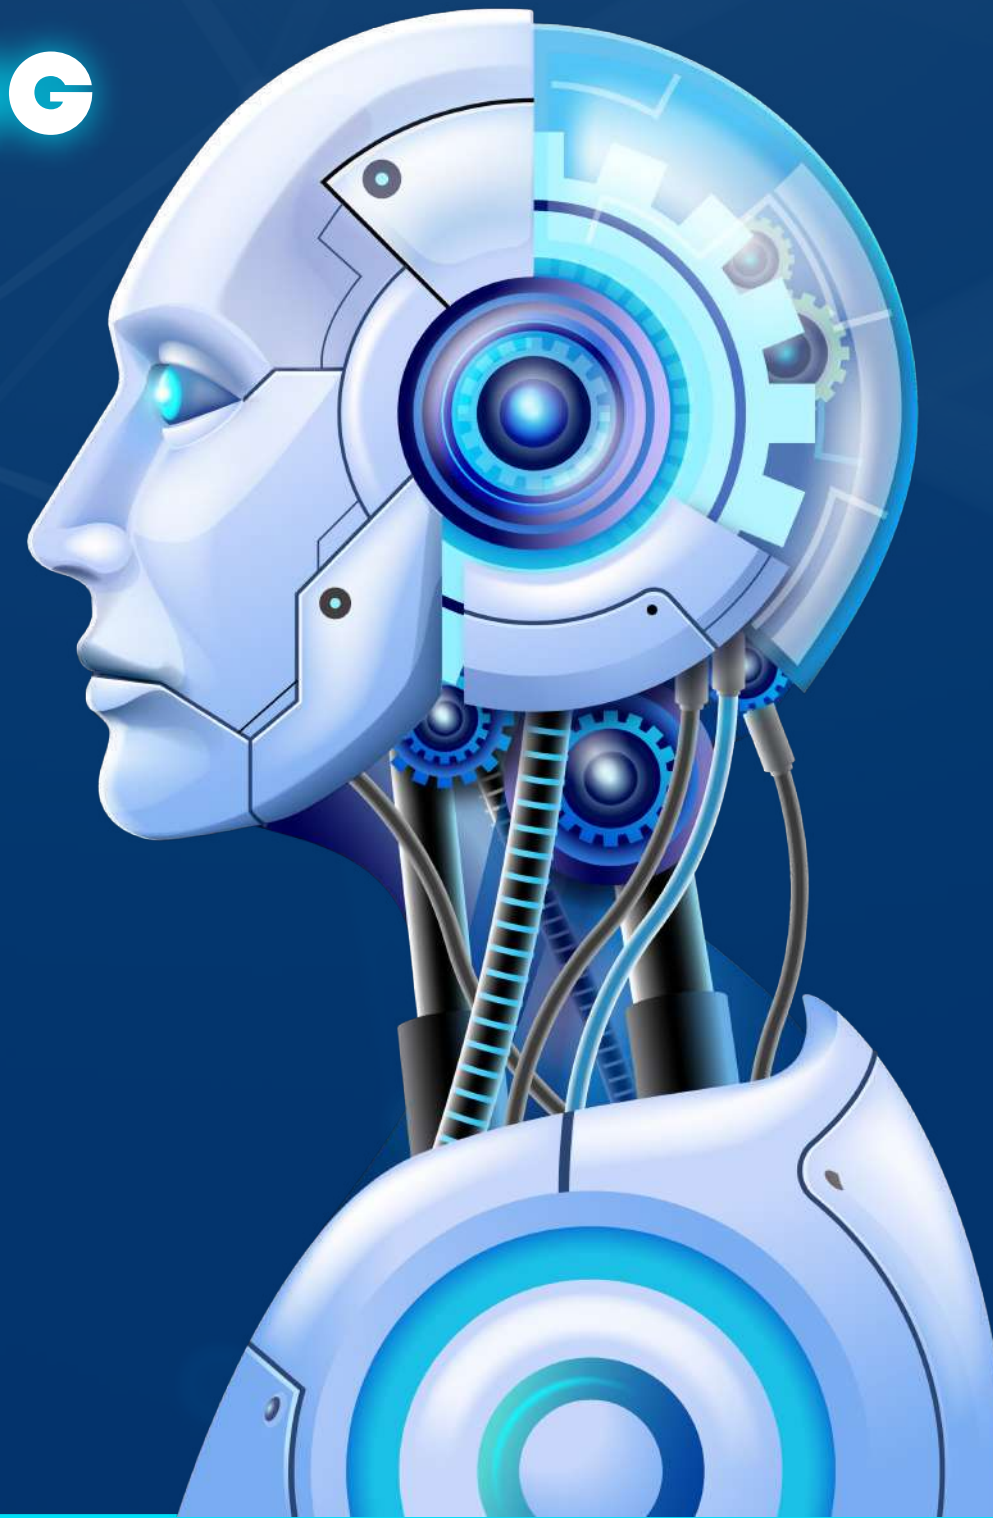

Our bots are designed for flexible and user-friendly interaction, accommodating diverse communication preferences.

- ✦ Users can engage with the bots in their preferred language.
- ✦ Users can utilize various input methods, including voice notes, screenshots, photos of problems (even handwritten notes) and video explanations.
- ✦ The bots are equipped to interpret questions containing complex diagrams, mathematical equations, and graphical representations.
- ✦ Technical Excellence: The bots are enabled with universal input recognition, visual intelligence, complete language Support, accessible Integration possibility and unparalleled accuracy validated against 500+ JEE Advanced level problems.

REVOLUTIONIZES LEARNING USING CUTTING EDGE AI

- ✦ Our bots are designed to facilitate a deeper understanding of concepts rather than simply providing answers. They engage users through a few questions, leading them towards the core of the problem and empowering them to discover the solution themselves.
- ✦ Students and parents can request practice problems on specific topics where students are weak at. They can also seek guidance and strategies on how to strengthen understanding in particular sub topic of any subject.
- ✦ Our bots are enabling parents, including those with limited formal education or those who primarily speak Hindi, to effectively assist their children in learning complex concepts at home. This empowers a wider range of parents to actively participate in their children's educational journey.
